

DESIGN FLOORING

Our room for heroes

*When we want to discover what
is really inside us, sometimes
we have to summon all our
courage. And dare to leap into
the unknown. It's a good thing
we already took care of a soft
landing.*

wineo®

Home is where you like to feel good all round. Not only does that include the ideal four walls and nice furnishing: the genuine at-home feeling also includes the floor covering that suits your lifestyle and provides the perfect basis for everyday activities. Reliable and safe.

We call that "Stage of Life" – and that is exactly what wineo® stands for: the right floor for the individual at-home feeling, lively, creative and at the same time highly functional. wineo® is your personal partner for high quality floorings that knows life and its demands, and is so nice that you are happy for it to move in.

Let yourself be inspired ...

Quiet, warm to the feet and gentle on the joints

With a wineo® design floor you bring a pure home living feeling into the house: Due to its elastic surface, it insulates footfall noise, creates a pleasantly warm climate and is kind on the joints.

Chateau Brown
wineo® 600 | DB00002
wineo® 600 | DLC00002

Suitable for damp rooms and water resistant

Even if the bathroom gets really wet when splashing around in the bath, damp and water leave no impression at all on our design floors. Simply wipe them off and that's it!

Aumera Oak Native

Quickly and easily installed

Give your home a new stage in the shortest time: Thanks to the innovative click system, the wineo® design floor is installed in no time at all. The Connect or LocTec® locking system enables a quick and glueless installation – easy as pie and neat.

PRODUCT FEATURES

BENEFITS OF THE DESIGN FLOOR

Thanks to their low installation height, the wineo® design floors are ideal for renovation work!

DURABLE

wineo® design flooring is non-staining. Even furniture or chair castors leave no marks behind.

QUIET

The soft surface ensures pleasant room acoustics.

GENTLE ON THE ANKLES

Thanks to the elastic surface, the joints are protected.

NON-SLIP

The tested surface is reliably safe with every step.

EASY CARE

Thanks to the sealed finish, the design flooring is very easy to clean.

WARM TO THE FEET

The design flooring feels pleasantly warm and is ideally suitable for lying, playing and living on.

SUITABLE FOR WET ROOMS

The design flooring also shows off its best side in the kitchen or bathroom.

SUITABLE FOR UNDERFLOOR HEATING

Installed on underfloor heating, the design flooring conveys an extra sense of cosy warmth.

My free space

Life is sometimes really quite turbulent. On days like this, I look forward all the more to my own four walls. Here I can simply switch off, take a deep breath and let go of all thoughts from the day.

Our wealth of ideas

We don't need a big stage for our music. We prefer to stay on the floor – so that our creativity can unfold and yet retains a secure footing. In this way, every appearance will be a guaranteed success!

ACCESSORIES

To round off the attractive room effect of the wineo® design floors, we also offer you matching brand accessories for the collections. From skirting boards coordinated with the decor and profiles in a wood or metal finish, through to various underlay materials, you will find everything you need.

You can find comprehensive information and explanations about all accessories in our **accessories catalogue** or under:

www.wineo.de

SKIRTING BOARDS

Matching skirting boards

The matching skirting boards are the ideal solution for a very harmonious wall finish. You can find out which designs have matching skirtings in our accessories catalogue or in the dealer brochure.

Exclusive skirting boards

To match all the decors we offer you our exclusive skirting boards in polar white, brushed aluminium and stainless steel finish.

Clipstar

For a quick and easy installation of the wineo® skirting boards, we recommend that you use the Clipstar fastening system. This system enables invisible cable routing and can easily be removed should you want to paint or paper the walls.

FEATURE STRIPS

You can use the wineo® feature strips to give design floors for gluing together a new look. Whether they are used as a joint on stone decors or as a design element between wood planks, in this way every flooring area receives an individual touch.

ALUMINIUM PROFILES

wineo® profiles are ideal for giving our floors a colourful and special looking finish to wall, adjoining thresholds or other structural elements. Besides the classic floor profiles made of aluminium, wineo® offers you a range of attractive wood looks for all finishes and transitions. The necessary expansion joint is also taken into account here.

Profi-Design transition profile
Two-part aluminium profile for covering expansion joints

Profi-Design adjustment profile
Two-part aluminium profile for transitions between different height floor coverings

Profi-Design end profile
Two-part aluminium profile, e.g. for wall finishes

UNDERLAY MAT **silentCOMFORT®**

The perfect walking and impact sound underlay made of natural raw materials for your design floor to click in.

- Resilient underlay material
- Made of up to 90 % natural raw materials
- Bridges uneven patches in the subfloor
- Increases the anti-slip effect
- Optimises the impact and footfall sound levels
- Increases the installation convenience
- Ideally suitable for hot water underfloor heating

MADE IN GERMANY

Technical characteristics

Thickness: 1,5 mm

QUALITY

All products that bear the wineo® name must meet the highest standards. We can only manage this with an outstanding team, such as the carefully selected, responsible raw material suppliers, a reliable delivery service in all respects and our professional service team. The sales team in both the office and the field is occupied by highly competent employees, who do their job with plenty of commitment and passion. We are also proud of our strong research and development department, which repeatedly comes up with high quality new developments.

Controlled quality

In order to guarantee the high calibre of our products, we set ourselves the highest quality standards. From the first step of the manufacturing process onwards, we carry out continuous quality checks. Both our own processes and those of other companies, who work with us, are permanently checked and continually developed. For the safety of the retail and trade sectors, we also naturally ensure that all the products meet the building regulations.

Visible evidence of our quality standards are the numerous technical certifications. So that you can rely on them.

All design floors to glue are determined by wineo® in terms of design, form and colour and produced under high quality standards. We are particularly proud of our German production site, where we manufacture our innovative, high quality products for gluing together.

AWARD WINNING

The wineo® floors are distinguished by a high quality standard, which relates both to the material properties and to the service surrounding our customers. The general DIBt building regulations approval is an independent, annual quality check.

All wineo® products feature this quality seal and in addition go through an internal quality check at the Augustdorf production site.

This is how we ensure the consistent quality that is proven by the following certificates:

Information représentative des émissions dans l'air intérieur des substances volatiles présentant un risque de toxicité par inhalation, sur une échelle de classe allant de C (fortes émissions) à A+ (très faibles émissions)
